VE PAZARLAMA A.Ş.

VARIOUS TYPES OF SHUTTERS THAT COMBINE  
NOSTALGIA WITH FUNCTIONALITY AWAIT YOU  
AT DECEUNINCK!

**deceuninck**

# SHUTTERS

Combining stunning aesthetics with superior functionality delivers maximum harmony. Deceuninck has developed shutter designs perfectly suited to the needs of your home.

Our special clip system allows the inner flanks of the shutter to open forward. A utility model certificate is obtained by Deceuninck for this application that brings innovation to the shutter system. You can choose your preferred colors, selecting from white and a great range of laminated boards for the shutter systems. It is also possible to choose arched shutter systems to suit your location. Choose Deceuninck shutter systems with confidence, they are compatible with all our window systems and have been tried and tested for many years.

Basic (MX) Colours

Solex (FX) Colours

Building a sustainable home

Environment - friendly  
Ca-Zn stabilizer is  
used in the production  
of Deceuninck profiles.
